

Site Information Sheet

About the sites...

Total Area	Anglican Church site	United Church site	Public parking lot
10,620 m ² (114,313 ft ²)	3,807 m ² (40,978 ft ²)	5,045 m ² (54,303 ft ²)	1,768 m ² (19,031 ft ²)

Anglican Church site

- The original church structure was built in 1928 in the Gothic style commonly seen in rural England during the 14th century
- In 1985 the building was declared a historic resource by the Alberta Ministry of Culture

United Church site

- The original church structure was built in 1979
- 23 interim housing dwelling units are temporarily on the site

Public parking lot

- Approximately 53 parking stalls exist
- A sidewalk along the parking lot provides a walking connection between Geikie Street and Turret Street
- A change in site elevation prevents vehicle movement between Geikie Street and Turret Street

Site Information Sheet

To inspire your work...

Prior to the 2024 Jasper Wildfire, here's what was happening on the church lands and on the parking lot in between:

Community and social services

- Alcoholics Anonymous meetings
- Community kitchen
- Designated emergency information centre
- Food bank
- Food recovery
- Thrift shop

Events and rentals

- Concerts and community choir
- Farmers market (with use of washrooms, facilities, and storage)
- Hall rentals for events (i.e. family gatherings, birthday parties, community events, bike auctions, and Christmas market)
- Weddings, celebration of life services, and funerals

Youth programs

- Chaperoned youth group sleep overs
- Youth group gathering space (ie. Sparks, Embers, Girl Guides, Pathfinders)

As you build your 3D model, consider the ways we used the land. What else is possible?
